

MAKE THE SWITCH TO DIGITAL ASSESSMENT

We know your time is valuable. That's why the **MHS Online Assessment Center+ (MAC+)** lets you administer, score, and generate reports with just a click of a button. MAC+ is a user-friendly, intuitive platform that will help simplify all the tasks in your assessment workflow, from adding a client to generating a report. Keep the gears turning and **maximize your efficiency.**

SAVE TIME

Switch from hand scoring to generating scores and multiple reports with **the click of a button**. Don't waste another minute trying to keep track of your paper forms. Track the status of your administrations and score responses quickly and easily within MAC+.

IMPROVE ACCURACY

With automatic online scoring on MAC+, you maximize efficiency and increase accuracy. Prevent human errors that can occur with hand-scoring. The **"double data entry"** feature helps enter scores into MAC+ from paper forms and eliminate data entry mistakes.

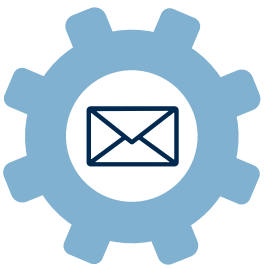

SAVE MONEY

Are you currently purchasing paper forms? By switching to digital assessment, you can stop paying for lost forms! Assessing digitally through MAC+ allows you to **print or send out as many forms as required** and your inventory won't be impacted until a report is generated.

Purchasing a use allows you to administer, score, and generate unlimited reports for each rater. **You won't be charged a use until a report is generated.**

There is no fee to set up an account for admin users; you can also add unlimited sub-users. Plus, monitor usage by user.

FLEXIBLE ADMINISTRATION

Emailing a link to a rater guides them directly to the assessment form.

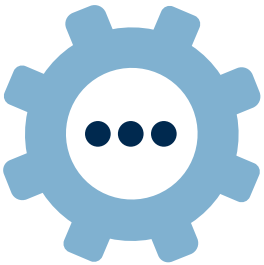

MAC+ allows you to:

- **Manage and send reminders** to your raters when they have incomplete assessments.
- **Eliminate pending forms.** Uses are deducted when results are scored, and a report is generated, not when you send the invite.
- **Visit our storefront anytime to purchase uses.** The use is automatically added to your MAC+ account and available for immediate administration. You may also purchase inventory directly through the MAC+ portal.

PAPER ADMINISTRATION IS STILL AVAILABLE

Print assessment forms for raters who may have limited access to the internet or other challenges that require paper administration with additional support in place. The form can then be returned to the practitioner to enter the information into MAC+. **Printing a form does not impact your inventory;** if a rater loses the form, you can simply re-print it without incurring any additional cost.

BETTER REPORT OPTIONS

Digital assessment gives you access to a range of report options, which vary depending on the assessment but can include:

- A report that looks at the results from one administration.
- A report that compares the results of different raters for one individual.
- A report that looks at an individual's progress for different administrations over time.
- Downloadable PDFs that allow for direct copying of text from reports (cut and paste tables, graphs, etc.)
- Helpful report summaries which can assist with interpretation or providing feedback to raters.

EASIER ACCESS

Administer, score, and generate a report from anywhere with an internet connection. Gain quick access to your account balance and usage history. **Eliminate the hassle** of carrying paper forms, USBs, and physical copies of manuals from place to place and worrying about keeping client data safe. All users can conveniently **access digital product manuals through MAC+**, included with the purchase of forms for all digital products released from 2018 onward.

Purchasing MHS' digital products automatically activates your MAC+ account. With the click of a button, administer, score and generate reports within a single easy-to-use portal.
