# BENEFITS OF ASSESSING ONLINE

We know your time is valuable! That's why the new Online Assessment Center+ lets you administer, score, and generate reports with just the click of a button. You can generate full reports through our automated scoring system with no data entry or software uploads. This means more time with your clients and less time waiting for information to be entered!

## Features and benefits include:

- ✓ **A single platform for all of your online MHS assessments**
- ✓ **Enhancements based on years of refinements and inputs from thousands of users**
- ✓ **Training and support to ensure an easy onboarding process**

## Administration Options

### In person while online:

Administer, score and report from anywhere with an internet connection. Practitioner or individual can complete the online form during an in-person session.

### Send a link via email:

Email a link to the rater which brings them directly to the assessment form. Practitioner or individual can complete the online form during an in-person session. Once the completed form is received, scores and reports can be generated.

### Print the form for paper administration:

The practitioner prints the assessment form for the rater to bring to home, school, or the office. The rater will then fill out the form and return to the practitioner. The practitioner enters the information to return scores and generate reports.

# Also Available **ONLINE**

**MHS.com/ASRS**

# FEATURES OF THE MHS ONLINE ASSESSMENT CENTER+

**The new online portal features many innovations that make conducting assessments as easy as possible!**

Exciting new features include:

## **Pay by report, not form**

Tired of paying for forms that are never returned? Now a use is only deducted when you score and generate a report.

## **Send customized reminders with the click of a button**

You can quickly send reminders to all your pending participants. To save even more time, you can have customized reminders sent out automatically when an invitation has been pending for a pre-determined period.

## **Send assessment links directly from the portal**

Send out multiple invitations—to teachers, students, and parents—all at once from the portal. Then next time you log in, you'll immediately see who has and hasn't completed the assessment.

## **Never run out of forms again**

With the click of a button, you can see your account balance. You can also have alerts sent to you whenever your balance falls below a certain level.

## **Manage clients with ease**

Our new client-management process allows you to enter a client and immediately conduct an assessment, all from the same page.

## **Monitor your usage history with our new graph feature**

To keep track of your assessment trends, we now offer charts and tables that break down your usage history by product and form over the past 12 months. If you're an administrator, you can quickly view product usage by one or all of your users.

## **Easily distribute forms to users**

If you're an administrator, you easily allocate forms to users, OR you can turn on the "shared distribution" feature which gives your users equal-access to the online forms. The choice is yours!

## FAQ

FREQUENTLY  
ASKED  
QUESTIONS

### **I'm a new online user. How do I get an MHS Online Assessment Center+ account? Does it cost anything to join?**

When you purchase online forms for the listed products, you will automatically get free access to the MHS Online Assessment Center+. A welcome email will be sent to you that includes a Getting Started Guide and your log-in credentials.

### **I am currently a user of the old Online Assessment Center. How do I switch to the new MHS Online Assessment Center+?**

In order to migrate from the old site to the new platform, there are steps outlined in a document—*Preparation Guide for Migration*—which is available through customer service or through your assessment consultant.

### **If I switch to the new site, will I lose all my data on the old site?**

Not at all! When you're migrated over, all your old data is automatically transferred into the new platform.

### **What do you mean by a streamlined payment process?**

Previously, you "used" a form when it was sent to a rater, whether they completed the assessment or not. Now you can send as many forms as you want; a use is only deducted when you generate a report.

### **Can I still generate a report from a paper form?**

Of course! Simply log in to the Online Assessment Center+ and select Enter Responses from the Quick Tools list. You can then enter responses using your keyboard and immediately generate a report.
